Photos: 24 hours in the Life of...

Student photojournalists shamelessly borrow a proven idea to record 24 hours in the life of Long Beach.

May 12, 1988 | CHRIS WOODYARD | Times Staff Writer

Long Beach may not be the jazziest place to spend 24 hours shooting pictures. But at least it's clean.

Lisa Beth Guntz snapped a photo of a man scrubbing an airplane. Mark Zaleski shot pictures of a group of guys washing police cars.

And if that was not enough, a rainstorm pelted the entire city when 13 student photojournalists and six campus reporters at Cal State Long Beach fanned out to document 24 hours in the life of Long Beach.

The teams started at 6 p.m. April 22 and roamed all night and the following day, looking for interesting pictures and stories. Their experiences ranged from wandering into a fraternity toga party to sighting hulking jack rabbits at Long Beach Municipal Airport.

Videos: Celebrate Success!

Show off Student Work that is really well done... projects, assignments, performances
Video: Daily Journal

Instead of writing down how they feel each day, challenge students to take a 30 second video each evening with their reflections on the day.

*use Remind to set up a daily reminder
Video: Social Skills

Play a video in a foreign language and have students analyze what the characters are expressing.
Self-Modeling Content
Video: Imagine or Social Cues

What did the scene in (insert novel) look like when....?

What was the reaction of _______ when (historical event) happened?

What did the lab look like when _______ was discovered?
Summary Videos

Flipping a lesson or class the following year… what can you use?
Videos: End of Year Projects

Have students take photos and video of everything they do in your class (the good, the bad, the ugly) and create a “Year in Your Class” video…

What do you start next year’s class with?
Ten Second Takeaways
ClipGrab

A friendly downloader for YouTube and other sites

Free Download! ClipGrab 3.6.5 for Windows
Donate now! 4194 people have donated so far.

ClipGrab for Windows is powered by installCore. You can download a version with no third-party offers here.

ClipGrab is a free downloade and converter for YouTube, Vimeo, Facebook and many other online video sites.
It converts downloaded videos to MPEG4, MP3 or other formats in just one easy step.

Final Tips
Tips for Collaborative Classrooms

Start class with a verbal activity… immediately

Use the Turn, Pair, Share (a lot)

Every 10-15 minutes do something collaborative

Color Codes…
Color Code Your Work
Tips for Collaborative Classrooms

Have them discuss in groups first

Use whiteboards in room and online

“Don’t worry, be vague”

Always ask another question… My Favorite?
What Leaders Do

Reward teachers who try—give them everything they want
Have those teachers share with staff
Create conditions where teachers can innovate
Have policy in place for misbehavior
Educate Parents
Rely on Student Production
Start Simple

Celebrate Success Publicly
